MADE IN THE USA

RB35

Owner's Manual

Dear Randall Owner,

Thank you for buying a Randall Bass Amp. Randall Bass Amps are made to strict quality and performance standards and will provide you with years of musical satisfaction. Please take a few minutes to review this manual. It will help you get the most from your new Randall Amplifier.

RB35: The RB35 is a solid state 35 watt combo bass amp powering a specially designed USA made Randall Jaguar™ 12" speaker. The preamp and output stage use the most reliable and best sounding devices available producing warm, clean tones with plenty of power to spare.

The Master Volume: Your RB35 Master Volume controls the overall output, or loudness of the amp.

Compression: The compression circuit on your RB35 squeezes your signal output to reduce peaks and unwanted distortion from your bass. This is useful when playing at louder volume as well as when playing in more percussive styles such Funk Slap/Pop.

The Tone Controls: Your RB35 features wide range tone controls. A zero setting will cut frequencies in that knob range while a 10 setting will provide maximum boost. Until you find your personal favorite setting, try putting all the controls on five. This will provide you with a good starting point.

Sweep Control: As an additional control for your mid range tone, the Sweep Control contours the mids from very fat to very thin sounding. These tonal variations are subtle when the mid control is set at the center position. Tonal variation increases as the mid control is adjusted upward. This provides additional flexibility for the musician who plays in a variety of styles.

Active / Passive Inputs: Each input is designed to maximize the signal quality coming from either active (with battery) bass guitar preamps or more traditional passive (without battery) bass guitar preamps.

Finally, thank you again for your purchase of a Randall Bass Amp. It will last for years with little or no maintenance. If you should encounter any difficulty, please contact you dealer or an authorized Randall service center. We are committed to providing excellence in amplification and are proud to be your musical partner.

IMPORTANT SAFEGUARDS

THESE WARNINGS APPLY TO ALL RANDALL ELECTRONIC PRODUCTS. PLEASE READ AND OBSERVE ALL WARNINGS AND INSTRUCTIONS CONTAINED IN THIS SERVICE MANUAL AND THOSE ON YOUR RANDALL PRODUCT PRIOR TO ITS USE.

WARNINGS AND SYMBOLS:

LIGHTNING FLASH: The lightning flash with an arrowhead within an equilateral triangle, is intended to alert the user of the presence of uninsulated **DANGEROUS VOLTAGE** within the product's enclosure that may be of significant magnitude to constitute risk of electric shock to persons.

PRECAUTIONARY WARNING:

RAIN AND MOISTURE: To reduce the risk of fire or electric shock, **DO NOT EXPOSE THIS UNIT TO RAIN OR MOISTURE.** Operators of electronic products should in no way be in contact with water.

EXCLAMATION POINT: The exclamation point within an equilateral triangle, is intended to alert the user of the presence of **IMPORTANT OPERATING AND MAINTENANCE OR SERVICE INSTRUCTIONS** in the literature accompanying the product.

WARNING GRAPHIC ON PRODUCT:

GROUNDING: To prevent electric shock, **DO NOT DEFEAT THE 3 PRONG GROUNDING PLUG** on product's power cord. Do not use an adapter, extension cord or outlet unless the blades can be fully inserted to prevent blade exposure.

WARNING GRAPHIC ON PRODUCT:

CAUTION: TO PREVENT FIRE OR ELECTRICAL SHOCK, DO NOT EXPOSE TO RAIN OR MOISTURE.

Randall Amplifiers 5 year limited warranty

Randall guitar, bass, speaker enclosures and amplifiers are warranted to be free of defects in workmanship and materials, in normal use for a period of five (5) years from the original date of purchase. During that period Randall will at it's option, repair or replace materials at no charge. Products must be delivered freight prepaid to Randall or an authorized Randall service center with original sales receipt or other proof of purchase. Warranty excludes exterior finish, normal wear and tear, failure due to abuse, or operation outside rated specification. Tubes are warranted by the manufacturer for a period of ninety days. Jaguar speakers are warranted by Randall for a period of two years. Warranty applies to original purchaser only. The Warranty gives you specific rights which vary from state to state.
