Output Power

100W RMS into 4 ohm at 1% THD
75W RMS into 8 ohm at 1% THD

 impedance: 100K ohm
Nominal Output Level: -0dB

Load Impedance: Load Impedance: Greater than 80
1.2 Crossover Setting: Greater than 80

Maximum Input Level: -45dB
Impedance: 500kohm

625W x 430H x 284D mm / 20.4Kgs

100W RMS into 4 ohm at 1% THD
75W RMS into 8 ohm at 1% THD

Middle: +/- 10dB at 600Hz
Bass: +/- 15dB at 50Hz

Highs: +/- 4dB at 3KHz

0dB / 20ms
Optimum Input Level: -10dB
Impedance: 4/8/16 ohm
150W RMS into 8 ohm at 1% THD

8 dB
Impedance: 100K ohm
Nominal Output Level: -8dB

1.2 Crossover Setting: Greater than 80

Load Impedance: 500kohm

Maximum Input Level: -45dB
100W RMS into 4 ohm at 1% THD
75W RMS into 8 ohm at 1% THD

Impedance: 100K ohm
Nominal Output Level: -8dB
WARNING. To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.

1. Unplug this apparatus during lightning storms or when unused for long periods of time.

2. Keep these instructions.

3. Heed all warnings.

4. Follow all instructions.

5. Do not use this apparatus near water.

6. Clean only with a dry cloth.

7. Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.

8. Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.

9. Avoid using a vertically polarised antenna when building a vertically polarised antenna, and use an assembly kit or a plug-ins module.

10. Protect the power cord from being walked on or pinched particularly at plugs, sockets, connection points, and the point where they exit from the product.

11. Only use attachments/accessories specified by the manufacturer.

12. Use only with a car, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a car is used, use a car that has a grounded plug.

13. Do not defeat the safety purpose of the polarized or grounding-type plug.

14. If an extension cord is required, use only a 3-wire extension cord having a 3-blade plug and a 3-slot receptacle compatible with the plug.

15. Do not overload wall outlets.

16. Unplug this apparatus during AC power cuts.

17. Refer all servicing to qualified service personnel. Servicing is required when the apparatus has been damaged in any way, such as power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the apparatus, the apparatus has been exposed to rain or moisture, does not perform as described in the operating instructions, or has been dropped.

Important Safety Instructions
